EDUCATION

- **Gandhi Institute For Technological Advancements** Bhubaneswar, Odisha
Bachelors of Technology in Computer Science & Information Technology; CGPA: 7.73 2021 – 2025

SKILLS

Languages: Python, SQL, Java, JavaScript, C
Data Analysis / ML: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow (basic)
Database: MySQL, MongoDB, DBMS
Tools / Platforms: Git, GitHub, VS Code, Jupyter Notebook, NetBeans, Power BI, Spyder

PROJECTS

- **Unsupervised Learning: KMeans & DBSCAN Clustering** (Sep 2025)
Applied KMeans, DBSCAN, and Hierarchical Clustering on airline passenger data to uncover patterns and optimize operations.
Workflow: EDA, missing value handling, outlier treatment, scaling, encoding, clustering, silhouette evaluation (0.85).
Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Flask, SQLAlchemy, PyMySQL.
- **EDA on Car Showroom Sales Data** (Jul 2025)
Performed exploratory data analysis on car sales data to uncover trends, peak periods, and business insights.
Workflow: Data cleaning, feature engineering, visualization, correlation analysis, statistical testing.
Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn.
- **AI-Powered Meeting Scheduling Automation using n8n** (Jun 2025)
Automated meeting scheduling using Gmail triggers, AI-based parsing, conflict validation, and Google Calendar integration.
Workflow: Capture requests via Gmail, parse using Perplexity API, validate conflicts, create calendar events, send notifications.
Tech Stack: Python, n8n, Gmail API, Google Calendar API, Perplexity API.

CERTIFICATIONS

- **Certification in Data Science & AI** 360DigiTMG
by 360DigiTMG (June 2025 – Present)
- **Data Fundamentals** IBM-SkillsBuild
by IBM Aug 2025
- **Databases and SQL for Data Science with Python** Coursera
by IBM Jan 2025
- **Fundamentals of Generative AI** Coursera
by Amazon Web Services July 2024

INTERNSHIP

- **NALCO** Jul 2024 – Aug 2024
Project Intern HTML, CSS, JavaScript, PHP, MySQL
- Developed an **offline storage web app** with file/folder creation, renaming, moving, and deletion.
- Implemented backend with PHP; frontend interactivity using JavaScript, HTML, CSS.
- Gained hands-on experience in **full-stack web development**.

ACTIVITIES

- Volunteered in Bakul Foundation's Day of Service (Oct 2024)
- Hosted a BGMI Tournament at GITA Tech Fest (Mar 2023)
